[Read collection overview](#)

Just 36 years of age, Jane Swift became Acting Governor of Massachusetts in 2001, the first and only woman to hold that office, the youngest woman governor in U.S. history, and the only one to give birth while in office. A native of North Adams, Swift served as a Republican in the state Senate from 1990-1996, becoming widely known for her role in passing the Education Reform Act of 1993. Defeated in a bid to represent the 1st District in the U.S. Congress, she served in the William Weld administration before earning election as Lieutenant Governor in 1998, rising to the governorship three years later when Paul Cellucci resigned to become Ambassador to Canada. Swift's tenure in office is remembered both for her calm management of the fallout from the

September 11, 2001 terrorist attacks and for a series of controversies that ultimately cost her political support. Trailing eventual nominee Mitt Romney in the 2002 Republican gubernatorial primary, Swift abandoned her campaign. Returning home to Williamstown, she has been involved in several educational initiatives, including serving as Director of Sally Ride Science and a lecturer in Leadership Studies at Williams College. Since July 2011, she has served as CEO of Middlebury Interactive Languages. She remains active in Republican politics.

Centered on her political career, Jane Swift's Papers provide insight into her experiences as governor of Massachusetts with content ranging from policy briefings to topical files, technical reports, economic and budgetary information, correspondence, legal filings, and transition reports at the time of leaving office. The visual documentation of Swift's time in office includes a wide range of photographs and videotapes. There is comparatively little material available to document Swift's time in the state senate.

## Massachusetts

### Politics and governance

## Background on Jane Swift

Gov. Jane Maria Swift was born in North Adams, Massachusetts, in 1965 to Jack and Jean Swift. Her mother, a teacher, and father, a plumbing and heating specialist, were active in the political scene in Berkshire County and forged bonds with local politicians that later propelled Jane's political career.

After graduating from high school, Swift attended Trinity College where she majored in American Studies. It was while at Trinity that she made her first foray into politics, interning in 1985 for a state senator from her home district, Peter Webber. Considered part of what the press called the Western Massachusetts (or Berkshire) "Republican juggernaut," Webber enjoyed wide respect in the state and the political power, financial backing, and public support that came with it. Swift made such an impression on Webber that he called on her three years later (1988) when a position on his political team opened up. As Webber's legislative aide, Swift helped design an outreach program to communities in Franklin, Hampden and Hampshire counties which were added to the Berkshire district through re-districting. Visiting these Hill Town communities, Swift became well-versed in the challenges facing the small, rural communities in the Commonwealth. When Webber chose not to run for re-election in 1990, Swift made a bid for his seat, earning the warm endorsements of Webber and his mentor, Jack Fitzpatrick, a former State Senator and key member of the Republican juggernaut. Still only 25, Swift became Massachusetts's youngest female State Senator.

Jane Swift speaking at an event

From the beginning of her career, education sat high on the list of Swift's legislative agenda. During her three terms as Senator (1991-1997), she emerged as a leader in education reform and was part of the team that wrote the Massachusetts Education Reform Act of 1993. A rising star in the Republican Party, she rose to the rank of assistant minority leader before leaving the Senate in 1996 to run for the U.S. House, aiming for the 1st Congressional District seat held by John Olver. Many saw this election as Swift's first serious political test and even though Olver won after a hard-fought campaign, he did so by the smallest margin of his career: 53 to 47%. The surprisingly close race catapulted Swift to the top of the Massachusetts Republican ranks. After completing her term in the State Senate, Gov. William Weld appointed her Director of Regional Airport Development at the Massachusetts Port Authority from March to November, 1997, after which she was appointed Director of the Massachusetts Office Consumer Affairs and Business Regulations by Acting Gov. Paul Cellucci. Less than a year later, she signed on as Cellucci's running mate in his bid for Governor, and in the winter 1999, she was sworn into office as Lieutenant Governor.

During her time in office, Swift was no stranger to controversy or to the harsh light of publicity. Being a single young woman in the Senate, she became the center of debate about women as political leaders versus as wives and mothers, and after she married Chuck Hunt in 1994, whom she had met at a political rally in 1990, she was propelled into the national spotlight when she announced her pregnancy during the election of 1998. In short order, her pregnancy rather than her political positions

became a focal point for many newspaper and media outlets, becoming a top story nationally, where it was repeatedly cited as highlighting the larger issues pertaining to working mothers.

Although Swift enjoyed high approval ratings when taking office as Lieutenant Governor, she soon became embroiled in personal and political controversy, beginning with allegations of misuse of government resources. At Thanksgiving time, Swift was accused of using a state helicopter to return home to care for a sick child, and she faced complaints that she ordered staff members to babysit her daughter. Facing a backlash from the public and political opponents, Swift requested an investigation by the State Ethics Commission which issued her a letter of warning regarding her use of the state helicopter and levied a civil penalty of \$1250 for misuse of two aides. But the criticism did not relent. Hobbled by criticism of her inexperience and for surrounding herself with equally inexperienced staff members, Swift appeared to her opponents as unapologetic and seemingly entitled. Accusations that she was overcompensated for a teaching position at Suffolk University and scrutiny of suspect "deals" on her various apartments fueled the controversy.

When Cellucci resigned the governorship in April 2001 to serve as U.S. Ambassador to Canada, Swift became Acting Governor, making her the first woman in Massachusetts history to occupy that office. Barely a month later, she gave birth to twin daughters, earning the distinction of becoming the first governor in the country to give birth while in office. Her tenure as Acting Governor was dominated by the fallout of the September 11 terrorist attacks and the subsequent financial turmoil. Lauded by her supporters for her decisiveness and calm demeanor, she helped lead the call on Congress to create the Department of Homeland Security, receiving generally positive marks for her performance, but little in the way of a bump in popularity. When she announced that she would run for governor the next year, she ran into stiff competition for the Republican ticket from businessman Mitt Romney, and after an assessment of the economic and political atmosphere convinced her that she could not win the nomination, she suspended her campaign, stating: "I believe that this is in the best interest of our state, as it will allow the Republican Party's best chances of holding the governor's office in November." Romney went onto win.

While Swift's political career may be remembered for its scandals as much as its policies, her post-gubernatorial career has been exactly what she has made of it, focusing on her passion for education. In 2003 she took a position at Arcadia Partners, an investment firm that focuses on the education industry. She left Arcadia in 2006 to found her own consulting firm WPN Consulting in 2007, and even served as John McCain's education adviser in his 2008 Presidential Campaign. From 2009-2011, she served as Senior Vice President of ConnectEDU, Inc., before being named CEO of Middlebury Interactive Languages in 2011. Middlebury Interactive Languages is a combined effort by Middlebury College and K12, Inc. to develop and implement new technologies in the classroom.

Jane Swift currently lives in Vermont with her husband and three daughters.

## Scope of collection

The Jane Swift Papers offer a multifaceted look behind the public curtain into the daily running and decision making of the Governor's office, as well as Jane Swift as a person, both in office and the years beyond her governorship. Providing insight into Swift's political career from its inception, the collection includes photographs of Swift's announcement to run for the State Senate and Peter Webber's endorsement of Swift, as well as her early campaign headquarters and fundraisers. Showcased in the collection is Swift's 1996 bid for US Congress; the Swift papers include photographs, campaign finance reports, and contribution records, as well as a comprehensive list of issues supported by Swift in the State Senate as of 1996. Newspaper articles, VHS tapes, and preparation documents for Swift's debate against Warren Tolman, her Democratic opponent, record Swift's bid for Lieutenant Governor and her pregnancy announcement that became the talk of the nation. The scandals that rocked Swift's Lieutenant Governorship are detailed in legal documents, including depositions made to the State Ethics Commission.

The Swift Papers include public policy briefings, transition reports, and legislation put forth by the Governor's office to the State House of Representatives, all of which show Swift's political policies and legislative work, while correspondence between office staff, constituents, and event organizers offers an inside look into Swift as Governor. While in office, Governor Swift gave birth to twins, and the collection includes cards of congratulations, gift logs, newspaper articles, and photographs commemorating the special occasion. One of the most fascinating parts of the collection is the information on Swift, post-governorship. The collection includes her job search, both for teaching and consulting positions, and the events she attended as a "Former Governor." These documents bring the collection full circle, showing before, during, and after her governorship.

Simply, what this collection offers is a glimpse into history, personal and political. It is a timeline of Swift's political career as well as her personal life, which was thrust into the national public eye with the announcements of her pregnancies. However, while Swift is the focus, the collection provides an interesting look at politics in Massachusetts in the late 1990s to early 2000s, the political issues and the scandals that rocked the state. Together the personal and political help us understand Jane Swift first and foremost as a person, who made mistakes and faced challenges and difficult decisions, and her place in Massachusetts state history.

## Series descriptions

## Series 1. Political and Professional

1991-2008

11 boxes

Materials relating chiefly to Swift's years serving as Lieutenant Governor and later the state's first female Governor; includes annual reports and state documents, correspondence, notes, press coverage, and post-gubernatorial plans. The birth of Swift's daughters, the first born during the Cellucci/Swift campaign and twins born while acting Governor, is represented by cards, gift lists, and newspaper clippings. Several events, from the September 11th terrorist attacks to various controversies, came to define Swift's time in office. These events and her response to them are documented in media coverage, official reports, and personal notes

## Series 2. Photographs and Audiovisual

1988-2006

5 boxes

Photographs documenting Swift's entire political career from her first campaign to her run for U.S. Congress and Lieutenant Governor. Official portraits and candid images at events, including photos taken during the transfer of power at the Romney/Healey inauguration, document her service as the state's first woman Governor. Video tapes contain footage from interviews and news coverage that capture the state's and the nation's interest in and scrutiny of Swift's time in office.
